Education

SRM Institute of Science and Technology

M.tech(Integrated), Computer Science Engineering -Cognitive Computing (CGPA: 9.96/10)

Jun 2022– Present

Chennai, India

Technical Skills

- **Languages:** Python, C++, Java, JavaScript, SQL, Kotlin, Dart, C
- **Frameworks/Libraries:** React.js, Next.js, Node.js, Express.js, TensorFlow, PyTorch, OpenCV, Streamlit, Flask
- **Databases:** MySQL, MongoDB, Firebase, PostgreSQL
- **Developer Tools:** Git, Docker, VS Code, Eclipse, Android Studio, Google Cloud Platform, Figma
- **Methodologies:** Agile, REST APIs,SDLC, CI/CD, DSA, Machine Learning, Computer Vision

Experience

IIT Mandi

Research Intern — High-Performance Computing

Jun 2025– Jul 2025

Mandi, India

- Improved SISL workflows using Python/Bash and optimized data processing pipelines.
- Implemented GPU parallelization and pipelining, reducing runtime by **45%**.

Jio Platforms Ltd.

Full Stack Developer Intern

Jun 2024– Jul 2024

Mumbai, India

- Developed an OEM analytics dashboard using React.js and Express.js for real-time monitoring.
- Shipped secure auth flows and Dockerized deployment, cutting setup time by **50%**.

Aaikyam

Software Developer Intern

Sep 2024– May 2025

Remote

- Built responsive Next.js + Tailwind UIs with improved UX and micro-interactions (Framer Motion/GSAP).
- Developed REST APIs with Node.js/Express, improving backend reliability and performance.

National Fertilizers Limited

Software Development Engineer Intern

Dec 2024– Jan 2025

Punjab, India

- Automated routine operations using Python, reducing manual reporting time by 40%.
- Assisted in CI/CD deployments and optimized enterprise software modules.

Projects

ScholarX — Research Paper RAG Pipeline | Python, ChromaDB, Sentence Transformers, RAG

- Built a production-ready RAG pipeline for semantic search and QA over research papers.
- Implemented hybrid semantic + keyword retrieval with reranking and citation grounding.
- Added evaluation framework (metrics, baselines, ablations) and failure-mode handling.

Digi Buddy (Agent-X) — Voice-Controlled Web Assistant | Python, FastAPI, Next.js, LLMs, STT/TTS

- Built a hands-free web assistant enabling voice-based webpage control for accessibility.
- Integrated LLM reasoning with DOM parsing/manipulation and real-time STT/TTS interaction.

Articulyze — Multimodal Communication Analysis Platform | Python, Flask, Whisper, DeepFace, MediaPipe

- Built a multimodal system analyzing speech, facial emotion, and gaze for communication assessment.
- Implemented speech-to-text, filler-word detection, and time-aligned verbal-nonverbal analysis.

AI Interview Preparation Platform | Next.js, Node.js, Firebase, WebRTC, Google STT

- Built an AI-driven interview platform with real-time voice analysis and adaptive difficulty.
- Integrated Speech-to-Text for transcription and performance-based feedback.
- Implemented dashboards for progress tracking and analytics.

Kathanam — AI-Powered Communication for Deaf and Mute | React.js, Firebase, Node.js, IndicWav2Vec

- Built an accessibility platform for real-time sign-to-speech and speech-to-text conversion.
- Utilized IndicWav2Vec and TTS models for multilingual voice generation.
- Applied for patent protection covering the AI-driven sign-to-speech and speech-to-sign communication system.

NoCodeFolio — No-Code Portfolio Builder & Code Exporter | Next.js, TypeScript, Tailwind CSS, Firebase, NextAuth, Vercel, Framer Motion

- Built a no-code portfolio builder with live visual editing and instant previews for developer/creator profiles.
- Implemented secure authentication and user data management using NextAuth and Firebase (Firestore + Auth).

- Enabled one-click deployment to Vercel and source-code export to provide full ownership of a generated Next.js + Tailwind site.

Achievements

- Won **3rd Prize** at TechXcelerate Hyderabad Hackathon (SaaS category).
- Secured **3rd position** at Team SRM Hackathon 9.0 among 200+ teams.
- Runners-up at Aarush Hackathon 2024.
- Winner of HackRush 1.0 organized by Qwiklabs Developer Club, SRMIST.
- Awarded Merit Scholarship for consistent academic excellence.

Publications

- Predictive Modeling for Patient Readmission, accepted in International Journal of Research in Computer Science and Engineering (2025).
